

COLORADO COUNTY APPRAISAL DISTRICT

STRATEGIC PLAN

The strategic plan is a plan that describes the state of the appraisal district five years from the current date, January 2025.

We will stay current with legislative changes created by the legislature.

The appraisal district will continue to incorporate evolving technology to be more efficient and responsive to the needs of the taxpayer.

We will continue to use technology (pictometry), field data collection devices, exemption audit tools, and other developing technology to better gather data and assess changes to properties within the district.

The commercial department will continue to grow and utilize more sophisticated appraisal techniques in the valuation of commercial property.

The residential department will continue to grow and utilize more sophisticated appraisal techniques in the valuation of residential property.

The personal property department will continue to grow and utilize more sophisticated appraisal techniques in the valuation of personal property.

We will continue to update and add photos of property within the district.

Land valuation will continue to be updated and more consistent within the district.

We will endeavor to increase awareness of the property tax system with the public and the taxing entities. We will provide more public outreach, as well as a social media presence and adding more content to the website.
